Experiment - 1:
Installation, environment setup and starting with C language

1- Write a C program to print "Hello world".

```c
# include <stdio.h>
int main() {
    printf("hello world\n")
    return 0
}
```

Programiz

C Online Compiler

Programiz PRO >

main.c

Share   Run   Output   Clear

```c
#include<stdio.h>
int main() {
    printf("hello world/n");
    return 0;
}
```

```
hello world/n
